QUARTERLY RESULTS ANNOUNCEMENT FOR THE THREE MONTHS ENDED 30 JUNE 2015

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this announcement, makes no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

OUTLOOK

Beauty, Slimming and Spa Centres

The retail sector in Hong Kong showed meagre growth amidst unstable internal and external economic environments and our beauty, slimming and spa business in Hong Kong was unavoidably affected. Nevertheless the management remains confident of the prospects of the segment given our excellent service management that enables greater quality assurance. The provision of beauty and slimming services by our beauty, slimming and spa centres is targeted at the female population aged 20 to 59 in Hong Kong, which was shown to be continually on the increase and has reached 2,519,200 at the end of 2014 (provisional figure), accounting for 34.7% of the total population according to the statistics of the Census and Statistics Department. We believe there are greater potential to be unleashed from this business despite the turmoil in face.

Our provision of comprehensive high-quality beauty and slimming service in Hong Kong has earned the long-term favour of customers. The combination of procedure sophistication with effective customer-oriented marketing measures such as special trial packages has enabled the provision of competitive products and services that meet the demand and consumption pattern of its target customers. Building on the above strengths, we believe the business will soon become a significant growth driver and made promising contribution to the Group again.

In the pursuit of excellence for its customers and to strengthen its leading market position in the beauty and slimming industry, the Group has introduced a number of innovative and sophisticated beauty, slimming and anti-ageing treatments and machineries. One of the highlights introduced was the “ThermaLift”. It is a technology that was developed to help the signs of ageing skin without surgery. This procedure is non-invasive and there is no “downtime” or recuperation required. The non-surgical facelift/browlift technology uses the most advanced dual mode pulsed light and radio-frequency energy source to produce a desired cosmetic or therapeutic effect without damaging skin. ThermaLift can safely treat wrinkles around the eyes, forehead, lower face and neck.

This technology is complemented by our introduction of the “Collagen Tri-peptide Refining Treatments” which represent a highly potent series of products used to smooth out wrinkles and increase firmness through boosting collagen synthesis and strengthening the skin matrix. This powerful blend contains nano-sized active ingredients that readily penetrate into the dermis layer of the skin for long-lasting smoothing, firming, clarifying and hydrating in all skin types. The results are particularly remarkable when the products are applied with the ThermaLift machine.

Our beauty and slimming business is supported by a strong network in the PRC. On the whole, the beauty and slimming industry is at the dawn of full development, given the ever increasing consumption power of people especially in the second and third tier cities, as well as rising aspiration for personal appearance and well-being among the Chinese consumers. The rise of the new affluent class and consumers’ uplifting demand in China are seen as the main drivers behind the increasing consumption of high quality beauty and slimming products and services. Sophistication also marked the direction of development, with a multifarious range of products and services on the China market including beauty, body sculpting, cosmetics, image design, slimming and health management etc.

To capture the opportunities arising from the trend of market sophistication, we keep on focus on high-end products and services with more rosy prospects, so as to more fully leverage on the strengths of our brand name, Sau San Tong, that enjoys wide recognition, board-based clientele and strong reputation on the market. Over the years, we have successfully built our brand name in the PRC through strategically locating our beauty and slimming centres in prime locations to promote customer access, lavishing on the design and layout of our centres to create an upscale image, and heavily investing in the most advanced technologies and the training of professional beauty technicians. Our beauty and slimming centre in Sinan Mansion, Shanghai and our luxury beauty and slimming clubhouse in Shanghai Bund area both opened in 2013 have added impressive dynamics to our business in the PRC. These two centres are designed to indulge our customers with impeccable

treatments and services provided by our stringently trained beauticians using our state-of-art equipment in a fantastic environment. In view of the anticipated strong demand for beauty, slimming and anti-ageing services and products in China where a larger portion of the population moves up the economic ladder, our established presence and reputation in the PRC market will definitely form valuable assets for our efforts to go seize a bigger piece of the high-end market with the view to establish a more sustainable growth and return.

Distribution Business in the PRC

Product distribution in the PRC is another core business of the Group alongside with the provision of slimming and beauty services. Dong Fang is the largest distributor of P&G products in East China Area, with a colossal presence in Jiangsu, Zhejiang and Shanghai. Its provision of high-quality products and services in the distribution of an extensive range of P&G products under the brand names of SKII, Olay, Pantene, Head & Shoulders, Oral-B, Gillette Men, Vidal Sassoon and a number of other brands in the East and West China along the years has helped to establish a solid reputation in the industry. Other household-known names in the portfolio of Dong Fang included Crest, Clairol, and Rejoice.

Health, Beauty and Related Products

The Group understands that a strong portfolio consisted of forerunning beauty and slimming products and services supported by the most advanced technologies is one of the fundamentals to our efforts to consolidate our leading market position and to enable our strategic move to the high-end market. Recently, a number of innovative products have been launched, including the Swiss-developed “PhytoCellTec™ Argan Stem Cell Dermal Anti Treatment”. Being the first skincare in the world proven to be effective in protecting and invigorating the stem cells in the dermis layer of the skin, this product series contains multiple stem cell ingredients to rejuvenate the skin, leaving it with less wrinkles, increased firmness and elasticity. Another star product was the “Haberlea Rhodopensis Skincare Series” that contains Haberlea Rhodopensis, or Resurrection Flower, which is known to survive up to several months of extreme hydration and return to life when proper moisture conditions are restored. Apart from restoring vital moisture to dry skin, this comprehensive skincare Series remarkably corrects the appearance of fine lines and wrinkles, helping to unveil a firmer, denser, sleeker & younger looking complexion.

Moving ahead, we will continue to source and develop new products and treatments supported by cutting-edge technologies and made with safe ingredients in order to cater to the needs of our customers. It is anticipated that the product sales segment will remain one major driver to steam the Group’s development in the future.

Franchise Co-operation Business in the PRC

The Group started venturing into the PRC market in 2004 upon seeing the immense potential of this new market. To succeed, we knew that we would need to establish our foothold in the industry and gain a considerable share of the market ahead of our counterparts, or in other words, in a relatively short period of time. The franchise co-operation model was considered a most suitable means to our ends, and it has enabled the Group to swiftly build an extensive network of franchise co-operate shops, capture a sizeable market size and establish a strong brand presence in the PRC upon its initial entry into the China market and over the years. In the future, we will continue to leverage on this successful business model and further expand our network of franchise co-operate beauty and slimming shops with the objective of further consolidating our brand presence and market position.

BeautyU Online Booking Platform

Determined to tap into the virgin market of internet selling in the beauty and slimming industry in PRC, we have launched BeautyU (www.beautyu.com), the first online beauty and slimming service booking platform in PRC in October 2012. This online shopping website was designed to free our customers from the annoyance of traditional exhausting hard-selling and prepayment practice, and was warmly welcomed by retail customers who wanted to make bookings online in accordance with their own needs. This platform of internet selling continued to perform well over the past years in terms of attracting retail customers, as well as soliciting beauty and slimming service providers to join. We believe the website will continue to be a valuable asset to the Group.

Securities Investments Business

In March 2015, the Group commenced a new business segment of investment in securities, which includes long-term and short-term investments in listed securities in Hong Kong and other recognised securities markets in the overseas as well as wealth management products purchased from banks and other financial institutions, with a view to enhancing the value of the shares of the Company and will therefore be in the interest of the Company and its shareholders as a whole. The Board is of the view that the securities investments business will diversify the income stream of the Group and broaden its revenue base. It is expected that the securities investments business may also improve the capital usage efficiency of the Company and generate additional investment returns on the idle funds of the Company.
