

## CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Notes:

### 1. Basis of preparation and significant accounting policies

The results have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards, which collective term include all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards and Interpretations issued by the Hong Kong Institute of Certified Public Accountants, accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance and also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the GEM of the Stock Exchange. They have been prepared under historical cost basis, except that the financial instruments classified as financial assets at fair value through profit or loss are stated at their fair values. The principal accounting policies used in the preparation of the results are consistent with those adopted in the preparation of the annual report of the Group for the year ended 31 March 2016.

## 2. Turnover and other revenue

Turnover represents the invoiced value of goods supplied to customers, net of discounts, returns, value added tax or other sales taxes; service income from provision of beauty and slimming services, net of discounts; franchise fees income; net gains or losses on financial assets at fair value through profit or loss. The amount of each significant category of revenue recognised in turnover during the period is as follows:

Management fee income	818	1,179
Interest income	6	37
Others	222	311
	<b>2,683</b>	<b>3,885</b>

## 3. Income tax expense

The Provision for Hong Kong Profits Tax is calculated at 16.5% of the estimated assessable profits for the three months ended 30 June 2016 and for the three months ended 30 June 2015. Taxation for overseas subsidiaries is charged at the appropriate current rates of taxation ruling in relevant countries.

Taxation in the consolidated statement of profit or loss (unaudited) represents:

	For the three months ended 30 June	
	2016	2015
	HK\$'000	HK\$'000

## MANAGEMENT DISCUSSION AND ANALYSIS

### Business Review

For the three months ended 30 June 2016 (the "Period Under Review"), the Group's turnover amounted to approximately HK\$523,198,000, representing an increase of 4% from approximately HK\$504,104,000 in the corresponding period in last year. The remarkable growth of 28% in the distribution sales of our Shanghai Dong Fang Ri Hua Sales Co. Ltd. ("Dong Fang") to approximately HK\$476,851,000 during the Period Under Review (2015: approximately HK\$373,894,000), which compensates the impact on significant decrease in the net gains on financial assets at fair value through profit or loss from approximately HK\$111,486,000 in the corresponding period in last year to approximately HK\$20,076,000 during the Period Under Review.

Notwithstanding the challenging market conditions encountered during the Period Under Review, the turnover generated from all our beauty, slimming and spa centres in both Hong Kong and in the People's Republic of China (the "PRC") amounted to approximately HK\$22,431,000 (2015: approximately HK\$14,756,000), representing an increase of 52% as compared to that of the corresponding period in last year. During the Period Under Review, the franchise co-operation business contributed HK\$3,453,000 turnover to the Group (2015: HK\$3,435,000).

During the Period Under Review, the Group recorded a decrease of approximately HK\$81,708,000 in gross profit and has generated profit attributable to owners of the Company of approximately HK\$9,278,000 (2015: profit of approximately HK\$91,969,000).

## Beauty, Slimming and Spa Centres

Aggravated by the weak consumption under a sluggish economy in Hong Kong and decelerating economic growth in the PRC, as well as other negative factors such as increasing costs of sales, rising salaries and inflating rentals, the beauty, slimming and spa business was unavoidably affected to some extent in the Period Under Review. Despite that, the Group well performed as it successfully brought its fundamental advantages to the full play to resist the industry cold snap under the outstanding leadership of the management. This was a tremendous encouragement to the Group amidst the severe business environment at the present and testified to the solid strengths of the Group.

The Group has a long history in the operation of beauty, slimming and spa centres in Hong Kong and the PRC. With extensive experience in the industry and committed efforts for innovations, the Group has continuously introduced sophisticated services and products of the highest quality for its customers, winning the long-term favour of its customers for its beauty and slimming products and services while successfully establishing brand advantages and customer loyalty. To further fortify its leading position in the industry, the Group has introduced a number of new beauty, slimming and anti-ageing treatments and machineries from time to time.

Recently, the Group has introduced the INDIBA slimming and beauty treatment. Originated in Spain, this treatment adopted the core INDIBA technology that was found to generate sound results in numerous areas including medical care, sports rehabilitation, beauty and body contouring since the eighties of the last century and was used for medical treatments in Europe at first. After years of development, INDIBA has obtained the CE and JFDA certifications and was honoured with a nomination for the Nobel Prize, gold award at the Geneva International Exhibition of Inventions, gold award at the Madrid International Exhibition of Inventions and other awards. It has become a beauty and slimming project enjoying vast possibilities in terms of applications. INDIBA uses 448kHz radiofrequency to balance the electrolyte levels of the cells, nourish and revitalise the cells. At the same time, it uses the transmission of physical electricity to the cells to load them with positive and negative charges, in order to increase the movement and rubbing between the cells to achieve deep heating that will in turn promotes the circulation of blood and lymph, improve the quality of the body and enhance health. When used for slimming, INDIBA attains remarkable results in body contouring, eliminating oedema and cellulite tissue, and increasing skin elasticity. When used on the face and eyes, INDIBA can improve the healing power of the cells, tighten and lift, fight against aging, moisturise and stimulate collagen production. To look after the skin characteristics of Asian ladies and to cater for the different reactions of different body parts, Sau San Tong has developed a targeted and effective treatment by combining INDIBA with customised complementary treatments. Our customers have been eagerly looking forward to experience our INDIBA slimming and beauty treatment upon the introduction by the Group.

Being a leader in the slimming sector in Hong Kong, the Group is committed to helping its customers to regain health and beauty and has introduced many other slimming treatments, including I-lipo Ultra from the United Kingdom. This treatment combines the biolaser targeted fat-melting technology with vacuum suction technology to focus on melting the fat in the 9mm subcutaneous fat region of and then remove them from the body through the lymphatic system after metabolism. As a result, fat is removed from the body de facto to sculpt the body shape. In addition, biolaser can also promote collagen production to effectively improve stretch marks, whereas vacuum suction can increase blood circulation, enhance lymphatic detoxification, fortify cellulite tissues and improve skin elasticity.

Another treatment called RadioDerm, on the other hand, combines multipolar radiofrequency with red photons to catabolise fat and invigorate the regenerating power of skin, stimulate the production of collagen and enhance the skin texture to improve the silhouette for slimming and body contouring effects. In addition to radiofrequency and red photons, Magic Line treatment also uses vacuum technologies to accelerate the elimination of body fat after it is being catabolized. This is a non-invasive procedure requiring no “downtime” and can attain outstanding results for our customers in a short period of time.

As the first listed beauty and slimming company in Hong Kong, the Group has consistently uphold the principles of quality products, professional services and honest operation. Backed by the strengths of the brand, the Group has won numerous awards over the years and enjoys sound reputation in Hong Kong, Macau and the PRC. It has preserved the outstanding record of “zero complaint” and was strongly trusted by its customers. With increasingly intensive market competition, some industry players have resorted to all possible means including dishonest sales methods to secure their market shares. Coupled with various beauty and slimming incidents during recent years and seriously weak and outdated government supervision, customer confidence has been impaired. This, however, has at the same time encouraged the customer demand for quality beauty and slimming services, enabling the remarkable increase in the turnover from the beauty, slimming and spa centres of the Group in the Period Under Review, proving the market’s recognition for the quality products and services provided by the Group. Maintaining the strategy of winning with quality, the Group will continue to leverage on its professional and outstanding beauty and slimming technologies, bring its brand visibility to the full play, and operate with honest and honour, in order to win over the consumers’ trust, secure a wider business coverage in the high-end market and thereby realise sustainable growth and return.

## Distribution Business in the PRC

Product distribution in the PRC is another core business of the Group and is carried out by the Group's subsidiary, Dong Fang. Dong Fang is one of the top three distributors of P&G in the greater China in terms of average sales in the PRC, and is the top distributor in the East China area. It is responsible for the overall distribution coverage in the Shanghai region and provides supply and sales services to its customers via various channels, including electrical appliances merchants, department stores channel, local modernised retail malls, supermarkets, small-sized supermarkets, convenient stores, maternity stores and cosmetic stores headquartered or regionally headquartered in Shanghai. Products involved include OLAY skincare, Head & Shoulders, Vidal Sassoon, Pantene, Rejoice, Pampers, Crest, Safeguard, Whisper, Ariel, Oral-B and Gillette. Moreover, the Company is responsible for the SK-II business in East and West China areas, covering Shanghai city, Zhejiang Province, Jiangsu Province, Anhui Province, Henan Province, Shanxi Province, Sichuan Province and Chongqing city (8 provinces and cities in total), representing a market share of 46% in China mainland.

## Health, Beauty and Related Products

The Group spares no efforts in keeping itself abreast of time and marching at the forefront of the market. Through heavily investing in the development and introduction of products embedding advanced technologies and safe ingredients to enrich its portfolio of health and beauty products, the Group targets to bring to its customers a wider array of sophisticated product choices. This will in turn further enhance the attraction of the brand name Sau San Tong and ensure the Group's leading market position.

Going forward, the Group will continue to launch different safe and effective products that meet the different needs of its customers, helping them to achieve beauty in a healthy way. We believe that the segment of distribution of health and beauty products will continue to make a stable contribution to the Group's results in the time ahead.

## Franchise Co-operation Business in the PRC

Building on its successful business in Hong Kong and a strong brand visibility, the Group started venturing into the enormous market in the PRC back in early 2004 and effectively laid a solid foundation in the beauty and slimming industry in China ahead of its counterparts, reaping a sizeable market share. Envy of the outstanding achievement of “Sau San Tong”, competitors, imitators and even fakers began to spring up like mushroom on the PRC market where the entry barrier to the industry was relatively low. To tackle the situation, apart from establishing high-end flagship centres in China to help clearly identify ourselves, the Group specially combined the name of our founder, Dr. Cheung Yuk Shan, Shirley with its brand name to form the new brand of “張玉珊修身堂” to establish the uniqueness of the brand, using it to fully explore the PRC market while letting the market and consumer more easily distinguish the genuine “Sau San Tong” brand and its inherent quality and professional products and services, protecting the consumers’ rights. The rapid growth in the number of franchise co-operation shops also put “張玉珊修身堂” on the top position in the beauty and slimming industry in China.

## BeautyU Online Booking Platform

Following its successful establishment of a huge franchise co-operation business in China, the Group once again stepped ahead of its competitors in launching “BeautyU” ([www.beautyu.com](http://www.beautyu.com)) in 2012, an online beauty and slimming service booking platform, through which its customers can conveniently and easily order products and make appointments for different services. This platform out of the traditional hard-selling and prepayment business model was warmly welcomed by the retail customers of the Group. Moreover, this platform also functions as a channel to solicit beauty and slimming service providers to join, helping to propel the Group’s business in the PRC.

## Securities Investments Business

As a move to expand its diversified business, the Group has commenced the new segment of securities investments business in March 2015 to put the idle funds of the Company into long- and short-term investments in listed securities in Hong Kong and other recognised securities markets in the overseas as well as wealth management products purchased from banks and other financial institutions, with a view to generate additional income outside its retail business, to widen its revenue base and minimise the risks of the Group on the overall, in order to enhance the capital use of the Company as well as the interests of the Company and its shareholders on the overall.
